

Infrastructure Discovery

Create your cloud migration strategies based on your business requirements and objectives.

\$5,000 – 10,000+ *

SMBs & Enterprise

2-4 weeks

Business Outcomes & Benefits

1.

Identify the readiness state of your current infrastructure and what you want and need to achieve your business goals.

2.

Understand infrastructure requirements and future business outcomes driven by the investment.

3.

Gain visibility into what other businesses are doing and **follow industry best practices**.

Discovery Engagement Deliverables

1. Assessment Report

Assess on-premises workloads and data running on virtual and physical servers.

Prioritize applications to migrate to Azure.

2. Business Case

A summary of the assessment findings and recommendations based on discussed priorities.

Estimated cost for running your current workload in Azure.
