

# SharePoint-in-a-Day Engagement

Get Started!

A simple way to adopt SharePoint in your organization.

Organizations with Office 365 that want to explore SharePoint.

< 24 hrs.

## Features & Benefits

**Receive a customizable SharePoint solution**

for one of your top business use-cases.

**Built-in Outlook & Microsoft 365 integration**

through ProServeIT's partnership with Colligo – a SharePoint solution that boosts productivity by making it easier for your end-users to use SharePoint.

**Improved search capabilities**

by being able to simultaneously search Outlook, SharePoint, Microsoft 365, and OneDrive for emails and attachments – all from an Outlook search pane!

## Deliverables

**Run a one-hour, introductory consulting & whiteboarding session**

To discuss the use-case you want to explore, plus best practices and success stories on how other organizations are using SharePoint.

**Implementation and deployment of one use-case on SharePoint**

With Colligo's built-in integration, and knowledge transfer of how to use the new SharePoint use-case to its fullest.

**Easy-to-understand roadmap of business use-cases**

to help you plan and build out the future of your SharePoint environment.
